Rethinking Sustainability  
Towards a Regenerative Economy

Goal 1: No Poverty - Economic growth must be inclusive to provide sustainable jobs and promote equality.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG1 in ending poverty in all its forms everywhere?

COST is supported by  
The EU Framework Programme  
Horizon 2020

Goal 2: Zero Hunger - The food and agriculture sector offers key solutions for development, and is central for hunger and poverty eradication.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG2 in ending hunger, achieve food security and improved nutrition and promote sustainable agriculture?

Goal 3: Good Health and Well-Being - Ensuring healthy lives and promoting the well-being for all at all ages is essential to sustainable development.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG3 in ensuring healthy lives and promote well-being for all at all ages?

Goal 4: Quality Education - Obtaining a quality education is the foundation to improving people's lives and sustainable development.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG4 in ensuring inclusive and equitable quality education and promote lifelong learning opportunities for all?

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG5 in achieving gender equality and empower all women and girls?

Goal 6: Clean Water and Sanitation - Clean, accessible water for all is an essential part of the world we want to live in.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG6 in ensuring availability and sustainable management of water and sanitation for all?

Rethinking Sustainability  
TOwards a Regenerative Economy

Goal 7: Affordable and Clean Energy - Energy is central to nearly every major challenge and opportunity.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG7 in ensuring access to affordable, reliable, sustainable and modern energy for all?

Goal 8: Decent Work and Economic Growth - Sustainable economic growth will require societies to create the conditions that allow people to have quality jobs.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG8 in promoting sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all?

Goal 9: Industry, Innovation and Infrastructure -  
Investments in infrastructure are crucial to achieving  
sustainable development.

How can the Regenerative  
Sustainability Paradigm in the Built  
Environment help the SDG9 in building  
resilient infrastructure, promote  
inclusive and sustainable  
industrialization and foster  
innovation?

## Goal 10: Reduce inequality within and among countries

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG10 in reducing inequality within and among countries?

COST is supported by  
The EU Framework Programme  
Horizon 2020

Goal 11: Sustainable Cities and Communities - There needs to be a future in which cities provide opportunities for all, with access to basic services, energy, housing, transportation and more.

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG11 in making cities and human settlements inclusive, safe, resilient and sustainable?

How can the Regenerative  
Sustainability Paradigm in the Built  
Environment help the SDG12 in  
ensuring sustainable consumption and  
production patterns?

Towards a Regenerative Economy

Goal 14: Conserve and sustainably use the oceans, seas and marine resources

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG14 in conserving and sustainably using the oceans, seas and marine resources for sustainable development?

COST is supported by  
The EU Framework Programme  
Horizon 2020

Goal 15: Life On Land - Sustainably manage forests, combat desertification, halt and reverse land degradation, halt biodiversity loss .

How can the Regenerative Sustainability Paradigm in the Built Environment help the SDG15 in protect, restoring and promoting sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halting and reverse land degradation and biodiversity loss?
